

GVM HYDRASPRAY 550-G

GVM HYDRASPRAY 550-G

GVM has been a pioneer in the design and development of the pick up sprayer. From the early days we have been making changes to better serve the customer on this, the most versatile sprayer on the market today. Being able to get from one field to the next with the greatest of ease, that's what makes the GVM Hydraspray 550-G so hard

to live without. It is a sprayer that can make you money.

GVM along with the new Ford F-550 have put together another complete and durable package.

Comfort, mechanical, heavy load rating, high road speeds these are just a few of what customers have to say about the

GVM HydraSpray 550-G.

One customer told us "the GVM Pickup Sprayer is the first unit to hit the field at the beginning of the season and the last one to leave the field at the end of the season".
